Based in East Yorkshire, CMW Horticulture carry a large stock of horticultural products and materials for immediate delivery.

Whether you require a complete solution or simply a convenient and friendly source for spares and components, CMW are able and willing to help.

Call our sales office today on 01430 422222 for availability and prices on whatever you require for your nursery.

## Plastic Greenhouses

Plastic greenhouses should not be confused with polytunnels. In fact CMW plastic greenhouses are an alternative to glass, and incorporate mechanical or automatic ventilation. They are an ideal choice for the smaller grower and suitable for a wide range of decorative and edible crops, heated and unheated.

CMW are sole UK distributors for Dutch plastic greenhouse specialists Van der Heide.
